

CAPABILITY STATEMENT

KELLER MACHINE

CAPABILITY STATEMENT:

Keller Machine's Machinists, Millwrights, and Welders specialize in repair and manufacture of industrial equipment used to manufacture steel and other products. We have the equipment and experienced Machinists to manufacture parts large and small, from one piece up to large quantities using manual and CNC equipment while holding tight tolerances. Keller Machine's Fabricators have the knowledge and experience necessary to build small to large fabrications, repair rolls, and more. Our skilled Millwright crew has the experience to rebuild a wide variety of equipment, from gearboxes to table rolls, and anything in between. We pride ourselves on being able to make fast repairs or quickly manufacture replacement parts when needed. We also have the ability to reverse engineer and provide drawings when needed. With over 25 years in business, we value our customers needs.
